

euNetworks' Dark Fibre

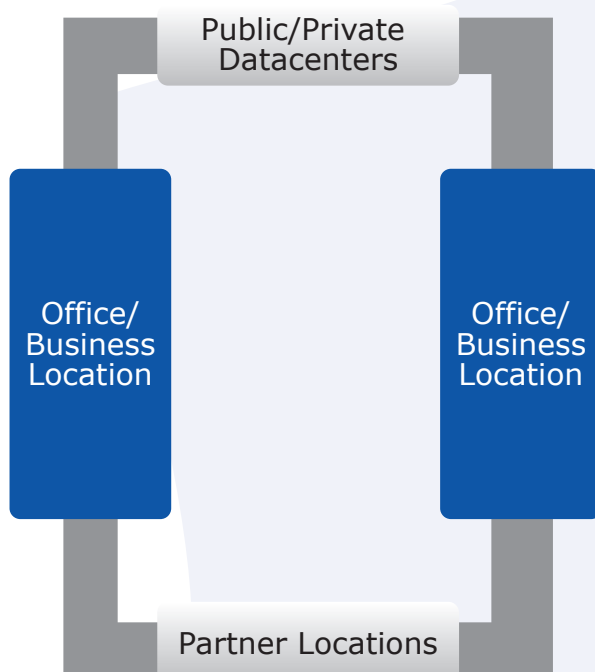

Dedicated Private Fibre Networks

In today's fast paced world where transactions are instant and reliability, complete security and cost efficiency are a basic need, using the right network solution for your business is vital.

For those who want to build and manage their own networks, euNetworks' Dark Fibre provides a secure base layer to build your infrastructure on.

A highly scalable solution, euNetworks' Dark Fibre offers the ability to add additional capacity and applications when needed at a low incremental cost. You are empowered to take control of your network.

We provide dedicated fibre networks to finance, media, enterprise and public sector clients. Each project is designed to meet specific requirements, be it for a simple site-to-site connection, to more complex disaster recovery, storage or algorithmic trading needs.

Key Features

- Secure, dedicated fibre for each customer requirement
- Near-unlimited capacity allows the customer to scale at a low incremental cost
- Enables data centre and customer site consolidation
- Ultra-low latency performance
- Built and used exclusively by euNetworks customers for their bespoke requirements
- Choose from Point-to-Point, Diverse Point-to-Point, Ring or Mesh solutions
- Supported by a stringent SLA
- euNetworks Dark Fibre supports all the latest technologies including multiple 10G, 40G and 100G systems
- A flexible option to migrate to a managed services at any time

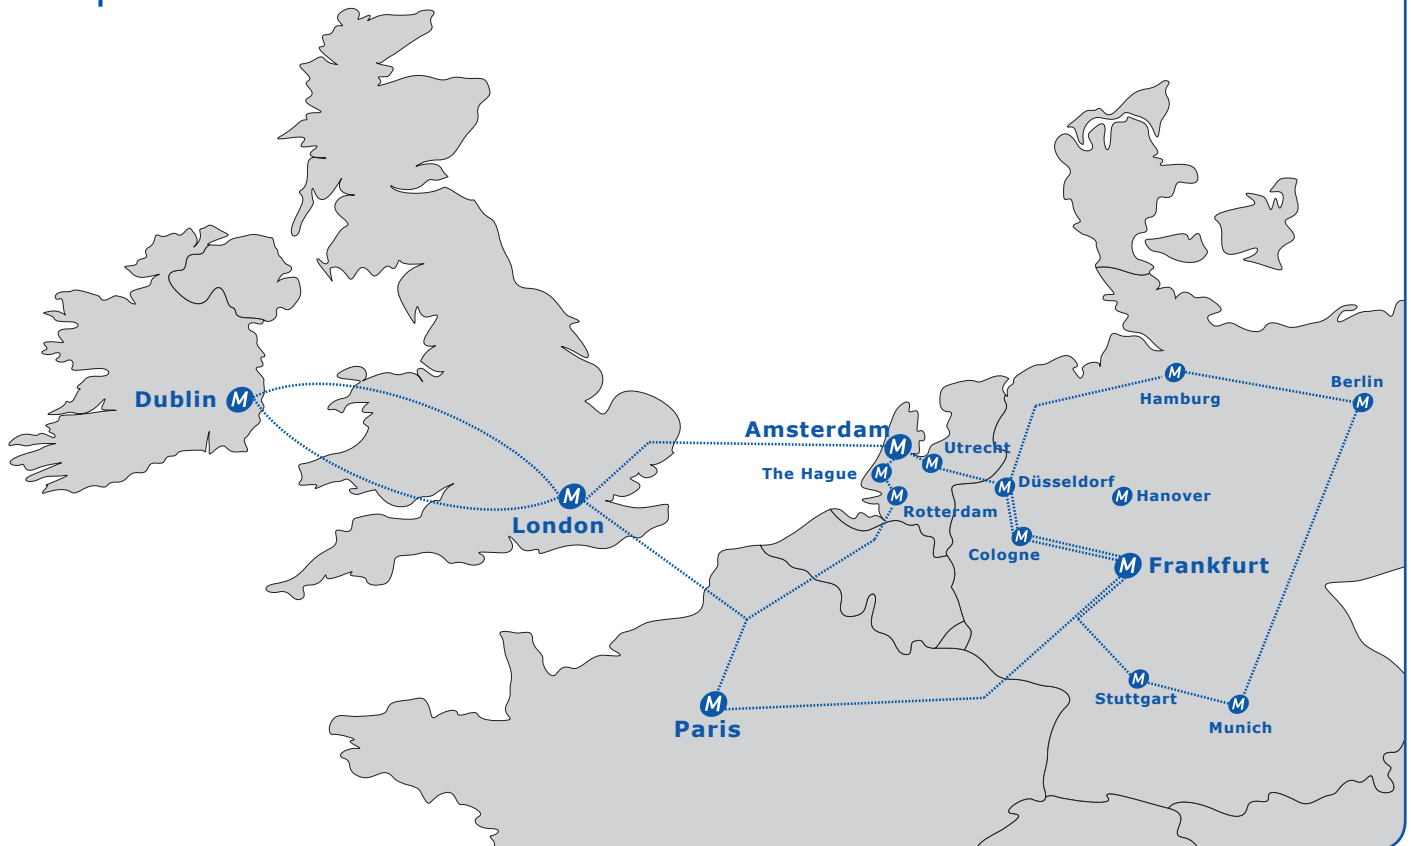

About euNetworks

euNetworks Group Limited (SGX: H23:SI) is a bandwidth infrastructure provider and owns 15 fibre based metropolitan networks across Europe connected with a high capacity intercity backbone. The company offers a portfolio of metro and longhaul Ethernet and Internet Protocol services including dark fibre, dedicated fibre, wavelength, Ethernet, and Internet. Enterprise and carrier customers benefit from euNetworks' unique inventory of fibre and duct based assets that are tailored to fulfil their high bandwidth needs.

euNetworks Group Limited is headquartered in London and publicly listed on the Singapore Stock Exchange. For further information visit www.eunetworks.com.
