

# euNetworks' Wavelength Services

## Fast, Reliable Point-to-Point Connections

The need for more and more bandwidth continues. Corporates increasingly find themselves with carrier-sized networking needs to transact ever-rising volumes of data and as richer applications become more commonplace in the work environment. Meanwhile, in the carrier and ISP space, the relentless growth of Internet traffic shows no sign of slowing, driving constant network augments.

euNetworks Wavelength service is a dedicated premium optical transport service which delivers high bandwidth, low latency point-to-point connections between business locations, from office to data centre or from data centre to data centre.

These services are designed according to your needs, giving your customers and end users the optimum network for their requirements. Our wavelength services are highly reliable and secure, offering both fully protected paths as well as unprotected paths.

euNetworks Wavelength services are available within our metro footprint, or between different metro networks. We offer GigE over wave and 10Gbps speeds within all major data centres and over 180 other buildings across Europe.

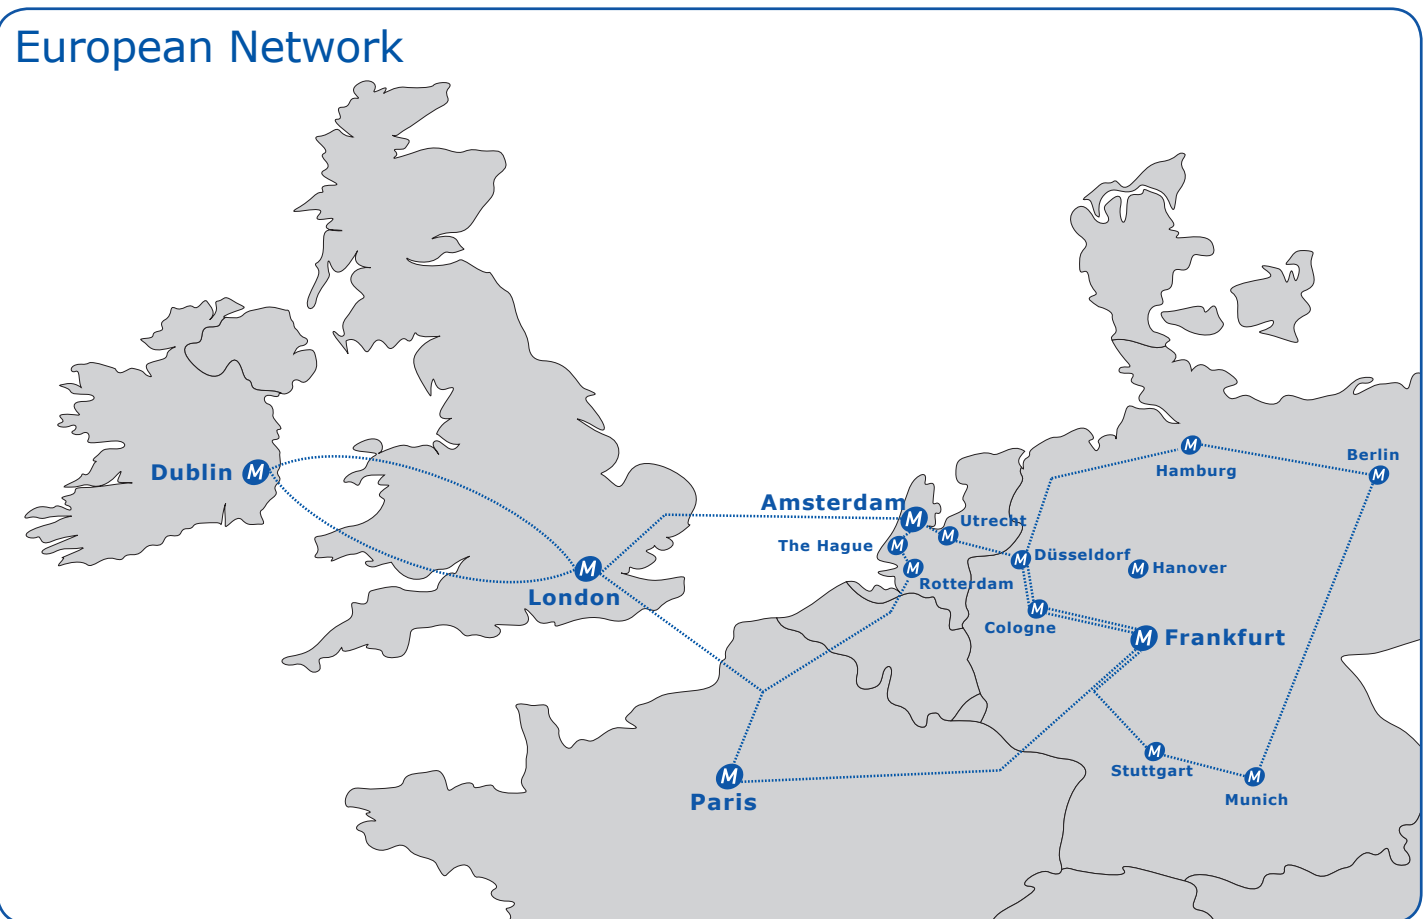

### Key Features

- Secure, dedicated connectivity for each customer requirement
- Enables data centre and customer site consolidation
- Ultra-low latency performance
- Built and used exclusively by euNetworks customers for their bespoke requirements
- Supported by industry leading SLA
- Supporting the latest technologies including to ensure lowest possible latency
- Available from over 100 data centres across Europe and over 180 other direct premises

## About euNetworks

euNetworks Group Limited (SGX: H23:SI) is a bandwidth infrastructure provider and owns 15 fibre based metropolitan networks across Europe connected with a high capacity intercity backbone. The company offers a portfolio of metro and longhaul Ethernet and Internet Protocol services including dark fibre, dedicated fibre, wavelength, Ethernet, and Internet. Enterprise and carrier customers benefit from euNetworks' unique inventory of fibre and duct based assets that are tailored to fulfil their high bandwidth needs.

euNetworks Group Limited is headquartered in London and publicly listed on the Singapore Stock Exchange. For further information visit [www.eunetworks.com](http://www.eunetworks.com).
